## Emerson Climate Technologies' 50RB Series SOLENOID VALVES

Normally closed, 2-way, direct-acting. Used for liquid or discharged gas refrigerant service.

Long-life molded & screw-on coils.  
Coil voltage: 24/50-60, 120/50-60, 220-240/50-60

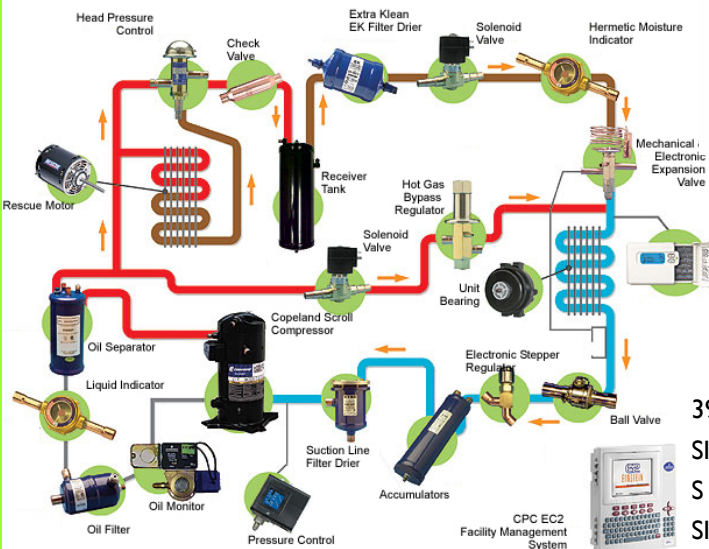

Extended ends solenoid valve body. Available in right angle or straight-thru. Nominal liquid capacity R22—0.54 tons. Leads length = 30"  
Maximum fluid temp: 250°F or 121°C  
Max. working pressure: 500 psig  
MOPD: 300 psig  
UL file number: MH25894
